

An online, global community dedicated to helping teachers succeed in their 21st century classrooms.

Always changing based on member feedback, the Teacher Learning Community's professional development program currently includes four main components:

Webinars:

Learn from and connect with education experts during live online sessions. Want to enjoy on your own schedule? Each webinar is recorded and made available to watch on-demand.

Learning Programs:

Working at your own pace and with your own agenda has never been easier! Enjoy 1000+ hours of SimpleK12's interactive training tutorials (all filled with practical real-life advice!).

Shared Resources:

Whether you're looking for a lesson plan, activity sheet, interactive whiteboard activity, or new online resource, you'll find it inside the Shared Resources area.

Collaboration:

A safe place for asking questions and sharing ideas, the discussion boards provide a sound jumping board for professional growth and development.

Top 7 Benefits of being a Teacher Learning Community member:

1. **Professional Development in Pajamas** – Access your membership anytime and anywhere, even at home in your pajamas!
2. **Practical Knowledge from Experts and Peers** – Discover real-life examples that you can take and use in your classroom tomorrow.
3. **Time-Saving "One Stop Shop"** – Looking for a new idea? Your days of searching the web are over, just take a look inside the Community.
4. **Ongoing Updates (So You're Always On Top)** – With new material added daily, you'll never be bored or left behind on what's new.
5. **Focus on Collaboration** – It's easy to connect with other members, and shape the future of the Community by giving us feedback.
6. **Printable Progress Reports** – All of your time is tracked and available for you to view or print inside your personalized Training Report.
7. **You Come First** – The Community works around your schedule, your feedback, and your individual needs. What more could you ask for?
